

Internet and WiFi information from major carriers

Below, I've included press releases and important details from each major carrier. Verizon, T-Mobile and Sprint customers have automatically had free hotspot plans added to their accounts at no charge. ATT's offer seems to only be for current hotspot customers. Additionally, all four carriers have made their wifi hotspot locations around town free.

Verizon: <https://www.verizon.com/about/news/verizon-helps-eliminate-worry>

- Adds 15GB of high speed data for wireless consumer and small business customers to be automatically applied with no customer action necessary.

T-Mobile: <https://www.t-mobile.com/news/t-mobile-update-on-covid-19-response>

- ALL current T-Mobile and Metro by T-Mobile customers as of March 13, 2020 who have legacy plans without unlimited high-speed data will get unlimited smartphone data for the next 60 days (excluding roaming).
- Starting March 20, 2020, providing T-Mobile and Metro by T-Mobile customers on smartphone plans with hotspot data an additional 20GB of smartphone mobile hotspot (10GB per bill cycle for the next 60 days) for each voice line. (T-Mobile Connect excluded).

Sprint:

- Customers with metered data plans will receive unlimited data per month for 60 days (a minimum of two bill cycles) at no extra cost.
- Customers with mobile hotspot-capable handsets who don't have mobile hotspot today will now get 20GB as well per month for 60 days (a minimum of two bill cycles) at no extra cost.

ATT: <https://about.att.com/pages/COVID-19.html>

- Starting April 2 through May 13, we are automatically increasing mobile hotspot data by 15GB a month for each line on an unlimited plan that currently includes a monthly tethering allotment.
