

Safety is the responsibility of each of us.  
See Something, Say Something, Do Something!

## New Year, New Possibilities, New You!

If you want to make real changes in your life you need to take certain steps. It is great to dream big. However, to make your dreams come true you need to do something about them, not just daydream. Are you ready to take the risk?

We feel confident and safe in a well-known environment and situation, and often, we are afraid to leave our comfort zone. Stretch yourself and be brave enough to do different things. Be willing to do try "it" in a unique way, and try something you have never done. Taking a risk is scary and easy to avoid, but think about the possibilities...

The New Year is like a book with blank pages.

How do you want to fill these pages?

**January**  
...is a mandatory fire drill month for our campuses.

**Remember, drill with a purpose. Set goals, conduct your drill, assess your performance, and share the results with your team. Don't forget to DOCUMENT!**

Nothing is impossible, the word itself says 'I'm possible'!

What do you know about SRP?

SRP = Standard Response Protocol  
This is our response to emergencies and critical incidents within our district.

Do you know what to do if you arrive at a campus and they are in a Lockout/Shelter, Hold or Lockdown? What about if they are evacuating the building or observing a weather event?

Take a moment and find the colorful posters that we have around the district and watch the training video. You can find it on the District Safety & Security Page.

Remember to LOCK and check doors! It is our first line of defense.

**CHALLENGE FOR 2023!**

**Let's smile, engage in those around us and remain attentive. This promotes personal safety and you may see someone who needs a helping hand.**
