

Proposed Hays CISD Academic Support Center (ASC) Talking Points:

20211111- DRAFT

The proposed ASC is designed to house approximately 185 current full time employees, 115 full time itinerant employees and contains planned office space for an additional 59 full-time employees over the next ten years. Total anticipated staff is 359.

These current staff members are located across the District in various facilities:

Department	Location	Mileage from Admin
Curriculum and Instruction	Live Oak Academy	3.0
Special Education	Kyle Elementary School Montgomery Building	2.5
Technology MIS	Kyle Elementary School Old Kyle Library	2.5
Career & Technology Education Department	Hays High School Old Band Hall	3.0

We anticipate the ASC will facilitate District improvement in many ways:

- Increases high school capacity through expansion of Live Oak Academy
- Provides future capacity for the Child Nutrition Warehouse by creating C&I warehouse
- Increases staff communication and creates synergy due to proximity and time on task
- Improves customer service for stake holders
- Improves Help-Desk functionality with adjoining technology warehouse
- Provides a secure location for parking and fueling of existing fleet vehicles and activity buses
- Portrays a presence of scale that is appropriate for Hays CISD’s current projected growth
- Ensures adequate voting facilities for the future
- Reduces traffic congestion and windshield time around town
- Enhances first impressions and “curb appeal” for recruiting top-notch talent
- Reduces mileage reimbursement cost and wear-and-tear on employee personal vehicles
