3. Due to many people being out next meeting will consist of creating new agenda for our next appearances with Dr. Wright, and leave an open floor for discussion.

Minutes:

Mr. Bonilla talks to us about how random drug testing is done in the district with those who hold CDLs, and asks us to discuss within the TLC on how to improve it.

Jonathon states that due to the large amount of members being out we will have a short meeting and advises us on how to handle an ex-members emotions towards us and who to report the information that was said.

Jonathon states that things are looking in our favor for the items we asked for when we spoke to Dr. Wright last semester. He says that next meeting (1/21/2022) we will compile a new agenda to present to Dr. Wright and discuss any open discussions we have thought of in areas that might need improvement.

Meeting ended: 10:38 am
