### **Agenda:**

1. Introduce new members
2. Catch up everyone on the details for Dr. Wright's meeting next week on 3/11/2022

Everyone introduces themselves and says what they do for transportation.

We deep dive into everything we have discussed and proposed to Dr. Wright and his cabinet. Pay raise for drivers and new hours of monitors, and equity adjustment across all transportation.

We discuss how and why we need in house student management and our steps to create a plan to present to Dr. Wright. Max Cleaver sent over the ID policy for all campuses and inquires as to why it isn't being enforced when a plan is set in place.

### **Open Floor:**

- Shop requests uniform shorts in the summer.
- Animal stickers to go alongside bus numbers for the seats for the littles who can't recognize numbers.
- QR code for parents on the bus to scan and email questions or grievances we can't answer while on route.
